## FOR IMMEDIATE RELEASE

### Computrol Proves Relentless Commitment to Quality with Another GLOBAL Technology Award

**MERIDIAN, IDAHO — September 2020** — Computrol, Inc., a world-class provider of mid- to low-volume, high-mix electronic manufacturing services to OEMs, received a 2020 GLOBAL Technology Award in the category of Contract Services \$50-100 million. The award was announced during a Virtual Awards Ceremony on Tuesday, Sept. 29, 2020. This is the eighth time that Computrol has been honored with this prestigious award.

Founded in 1984, Computrol has a long history of providing electronics contract manufacturing services and support to blue-chip customers ranging from military and medical electronics, to telecommunications and computer peripherals.

Computrol continues to build on its core services and capabilities by investing in versatile, high-speed manufacturing equipment and technology, as well as continuing training programs for employees.

The company continually updates its state-of-the-art facilities with new advanced systems to keep up with its customers' needs.

The GLOBAL Technology Awards have recognized the very best new innovations in the printed circuit assembly and packaging industries since 2005. The prestigious awards contest has been bringing together the global SMT and advanced packaging industry in a celebration of the companies and people that are achieving the highest standards and driving our industry forward. For more information, visit [www.globalsmt.net/awards](http://www.globalsmt.net/awards).

Computrol focuses on providing electronics manufacturing services throughout the lifecycle of high-mix products. Maintaining this focus enables the company to provide faster assembly operations than those in large factories. For more information, visit [www.computrol.com](http://www.computrol.com).
