Computrol Wins Its 9th GLOBAL Technology Award for World-Class Contract Services

MERIDIAN, IDAHO — November 2021 — Computrol, Inc., a world-class provider of mid- to low-volume, high-mix electronic manufacturing services to OEMs, is pleased to announce that it received a 2021 GLOBAL Technology Award in the category of Contract Services \$50-100 million. The award was announced during a ceremony that took place Tuesday, Nov. 16, 2021 during productronica in Munich, Germany.

This is the ninth year that Computrol has been honored with this prestigious award.

Computrol has a long history of providing electronics contract manufacturing services and support to blue-chip customers ranging from military and medical electronics, to telecommunications and computer peripherals. Computrol continues to build on its core services and capabilities by investing in versatile, high-speed manufacturing equipment and technology, as well as continuing training programs for employees.

Computrol has upgraded its state-of-the-art facilities with more than ten new advanced systems to keep up with its customers' needs. Some of Computrol's new capabilities include the Spea 4050 Flying Probe, a Nordson DAGE Ruby FP X-ray system, five MV-7 OMNI 3D In-Line AOI Machines from MIRTEC, five KY-8030-3 in-line, fully automated SPI systems from Koh Young Technology, Viscom X7056-II Automated Xray Inspection system, TMT-9800S Robotic Soldering System, 2 new aqueous Technologies batch cleaners, 2 new Nordson NOVO selective soldering systems, and more.

The GLOBAL Technology Awards have recognized the very best new innovations in the printed circuit assembly and packaging industries since 2005. The prestigious awards contest has been bringing together the global SMT and advanced packaging industry in a celebration of the companies and people that are achieving the highest standards and driving our industry forward.
