KYZEN Receives 2025 EM Innovation Award for Real-time Concentration Monitoring with the ANALYST²

NASHVILLE — March 2025 — KYZEN, the global leader in innovative environmentally friendly cleaning chemistries, proudly announces that its KYZEN ANALYST² has been honored with the 2025 EM Innovation Award. The award was presented on March 27, 2025, during productronica China at the Shanghai New International Expo Center.

The [KYZEN ANALYST²](#) is an advanced system that incorporates customer feedback for enhanced performance and utilizes sonic velocity technology for real-time concentration measurement. Unlike other sonic velocity instruments, the ANALYST² provides more precise measurements by directly measuring concentration, offering fast and stable readings independent of the liquid's conductivity, color, or transparency.

Designed for maximum efficiency and flexibility, the ANALYST² is compatible with over 60 cleaning solutions, including non-KYZEN chemistries, broadening its application and maximizing return on investment. Its long-term durability and minimal maintenance requirements further enhance cost efficiency, making it a valuable asset for any production line.

Jayson Moy, Director - Global Product Lines at KYZEN commented about the award: "By delivering precise, real-time concentration monitoring, the ANALYST² empowers manufacturers to reduce waste, optimize resources, and maintain the highest standards of quality—all while improving overall process efficiency."

Established in 2006, the EM Innovation Awards program strives to recognize and celebrate excellence in the Asian electronics industry, inspiring companies to achieve the highest standards and push the industry forward.

About KYZEN

KYZEN is a global leader in providing environmentally responsible, RoHS compliant precision cleaning chemistries for industries ranging from electronics and advanced packaging to metal finishing and aerospace applications. Since its founding in 1990, KYZEN's innovative cleaning technologies, scientific expertise and customer support have been repeatedly recognized with the industry's most prestigious awards.
