**For Immediate Release**

**Luminovo Hosts First U.S. Focused Webinar: Exploring Tariff Impacts on the Future of EMS**

**DOVER, DE – April 2025** – Luminovo, the number one quoting, procurement and collaboration software for the electronics supply chain, is excited to announce its first dedicated U.S. webinar, titled “How Tariffs Impact the Future of the EMS Industry in the U.S.” The 45-minute session will take place on Tuesday, May 6, 2025, at 3 PM ET / 12 PM PT, and will be hosted by Sam Mason and Matthew Rosenberg.

With global supply chains under pressure and tariffs reshaping cost structures, this session is designed to help EMS (Electronics Manufacturing Services) companies in the U.S. adapt to a fast-changing landscape. Attendees will gain insights into how trade policies are affecting sourcing, profitability, and lead times—alongside practical strategies for strengthening supply chain resilience.

“Our goal is to equip EMS professionals with actionable insights to navigate uncertainty and plan smarter for the future,” said Sam Mason, Business & Operations Lead, North America at Luminovo.

**Key Topics Include:**

- **Current State of Electronics Manufacturing** in the U.S.
- **Direct and Indirect Impacts of Tariffs** on cost, sourcing, and delivery
- **Tactics for Optimizing Supply Chain Strategy** amid ongoing disruption

The webinar is tailored for professionals in EMS, contract manufacturing, and electronics supply chain management, including executives, sourcing leaders, and operations teams. Registration is now open at:
